

**Safeena Husain**  
Founder and Board Member  
Educate Girls

A social impact leader, Safeena Husain is the Founder and Board Member of Educate Girls – an Indian non-profit working towards empowering communities for girls’ education in some of India’s hardest-to-reach villages. In 2023, Safeena became a WISE Prize laureate, making her the first Indian woman to be honoured for her contributions to girls’ education in rural India.

Since its foundation in 2007, Educate Girls has achieved remarkable success, mobilising over 1.4 million girls for enrolment and supporting over 1.9 million students with remedial learning. The organisation works with over 21,000 community-based gender champions in some of the most marginalised communities in India to break the cycle of inequality and exclusion.

Under Safeena’s guidance, Educate Girls has become a leading force globally, harnessing innovative financing and technology to bridge the gender gap in education. Under her visionary leadership, Educate Girls delivered the world’s first Development Impact Bond in education, an outcomes-based financing model that achieved extraordinary results in both learning and enrolment. She led Educate Girls to become Asia’s first TED Audacious Project, a collaborative funding initiative focusing on scaling solutions to the world’s most pressing challenges. Safeena was conferred the NITI Aayog Women Transforming India Award and has received [global accolades](#), including the USAID Millennium Alliance Award, MIT Solve’s Learning for Girls & Women Challenge, Skoll Award for Social Entrepreneurship, and the World Bank India Development Marketplace Award.

**ABOUT EDUCATE GIRLS:** Educate Girls is a non-profit organisation that focuses on mobilising communities for girls’ education in India’s rural and educationally backward areas. Working in partnership with the Government, Educate Girls currently operates successfully in over 24,000 villages of Rajasthan, Madhya Pradesh, Uttar Pradesh and Bihar. By engaging with a huge base of community volunteers, using predictive analytics and machine learning, Educate Girls helps to identify, enrol, and retain out-of-school girls, and improves foundational skills in literacy and numeracy for all children.
